

Design and Sustainability, Meet Quality.

Haws® Introduces the Touchless EWC 1210

On-wall, ADA-compliant*, touchless, chilled bottle filler merges the unmatched quality and innovative design of Haws product, now with the fastest lead time in the market.

Hygienic Motion Activation

Thoughtfully designed for user peace of mind, the EWC 1210 is the latest hydration solution in the Haws line-up.

- An intuitive LED display together with hands-free activation helps eliminate the spread of germs and makes for a quick, clean, touchless operation.
- An adjustable, elevated platform separates the clean fill area from the used water pour area, while a deeper basin ensures greater spill mitigation for a truly hygienic user experience.

EWC 1210

Industry Leading Quality

Every feature on the EWC 1210 is backed by the quality you'd expect from Haws.

- Ease of installation and maintenance makes it ideal for new construction and retrofit projects alike, a complement to any current fountain.
- The stainless steel profile is at once sleek and easy to clean, and every Haws product comes with Haws technical support.

Sustainability Comes Standard

With smart energy-saving capability standard, industry-leading bottle fill rates and filters, and 100% lead-free waterways, the EWC 1210 is one of the most sustainable offerings in touchless operation.

*ADA compliant when minimum requirements are met. Please refer to the Americans with Disabilities Act or contact a Haws Technical Service representative to learn more.
